

Entry to Reception classes Bases

Dear parent/carers

As many of you will know over the summer break work has been happening in and around school for a lift to be fitted so that there is disability access to the first floor.

Sadly, there has been a delay on this due to COVID. This has meant that some scaffolding has had to remain in place until the lift is fitted, hopefully, week commencing the 13th September.

This scaffolding does impinge on access to the normal entrance for our two reception classes (Robin and Puffin).

To ensure safe entry and exit to and from these two class bases we are going to use the main school entrance instead.

This means that on arrival over the next two weeks please bring your child to the main school entrance, where one of our reception staff members will be there to meet and greet.

At the end of the day the staff will bring the children to the main door. Once they see you your child will be asked to walk to you.

Don't worry we will be around to direct and guide you.

Thanks.
